Ok, sounds good. I'll hopefully loop in Rich as well. Just left him a message about it. I'll let you know before 1:30 pm where to call us.

Would it be worthwhile to try and arrange a 15 minute call for all of us, including Rich and Elliott? This is all new to me, so I'm not sure I can explain it well to either of them myself. We have a meeting with our front office this afternoon so we could give them a heads up today, if necessary.

Don't know. I would assume that they still might put the call in. We'll try to keep you in the loop as much as possible as we go along and as we hear things.

Does this mean DOE is no longer going to call Scott Fulton?

Good Morning:

At 9:30 am Jeanette End and I participated in a teleconference with Mr. Timothy Dwyer and Mr. Daniel Ogg of the DNFSB. These gentlemen were aware of the SPRU release and the Type B Report issued by the DOE. They also have the authority and charter to investigate matters involving waste categorization and particularly high-level radioactive waste (HLW) categorization at DOE facilities.

We shared our finding (b)(5) - Deliberative Process, Attorney Work-Product
